

MANITON

TOURS
YOUR TRAVEL THERAPY

Words from the Top Management

As a service provider, we realize that our product cannot be seen, touched or even smelled; however, it can be customized, enhanced and optimized to make sure we leave our customer with a positive experience and worthwhile memories to take back home. The spirit to serve, the full understanding of adequate standards of service and the proper communication skills – which are, in a nut shell, conveying honest, accurate and complete information – are, in our modest opinion, the main keys to a successful tourism operation... With this in mind, we built a team honoring this concept. At Maniton Tours, we promise you a travel partner you can rely on, an unmatched level of outstanding services where you can feel confident about the final result. Proudly your travel partner, Maniton Tours

Maniton Tours Philosophy

Tourism is a great industry for those who do what they cherish, those who have passion for their work, those who can live up to all challenges and those are the members of our team: fully committed to relate to all our customers' aspirations. A commitment that comes from understanding is rarely found! An understanding that enables us to realize that tourism is an intangible product where every detail counts, an understanding that enables us to see through our client's eyes and yet maintain our hospitality experience perspective. We sweep all available providers for the latest promotions, newest products, and best available rates at all times whilst maintaining our selective standards of quality. We seek higher levels of customer satisfaction; we aim to give more for less. To us travel is not just to get someone from one point to the other; it is the ultimate realization of a pleasurable journey away from the usual, the normal or the average.
